

## More on Staffordshire FRS's Rosenbauer Advanced Technology (AT) Fire Engines

The November 2018 edition of The Fire Brigade Society's journal, Fire Cover, carried an exclusive in-depth feature article on Staffordshire FRS's new, Volvo chassied, Rosenbauer Advanced Technology (AT) Fire Engines.

Staffordshire FRS has purchased a total of eleven Rosenbauer Advanced Technology (AT) fire engines and the first is now operational at Hanley fire station.

Longton, Burton, Cannock, Lichfield, Leek, Sandyford, Tamworth, Newcastle, Stafford and Penkridge will become home to the others when they go operational throughout 2019.

For further details use the link following where a video of these vehicles is available for viewing.
